## **GloryBee Policy on Material Safety Data Sheets (MSDS)**

**Dear GloryBee Customers:**

The purpose of Material Safety Data Sheet (MSDS) is to communicate hazards. None of our food products are considered to be carcinogens, highly toxic substances, irritants, sensitizers, toxic chemicals, hepatotoxins, nephrotoxins, reproductive toxins, cutaneous hazards, or eye hazards. By this 29 CFR 1910.1200 definition, our products, are therefore, considered non-hazardous. We do not provide MSDS for products deemed to be non-hazardous by 29 CFR 1910.1200. Please refer to Appendix A- Health Hazard Definitions. We will provide MSDS for cooking oils upon request, as they can require personal protective measures and flammability cautions in their handling.

Please feel free to contact us if you have any questions or require further information.

This I certify and endorse:

**Jim Bruns**

QA Supervisor | Quality Assurance
